WORK EXPERIENCE

UI/UX DESIGNER

Personal Projects

- Design responsive web and mobile interfaces focused on usability, accessibility, and user-centered design principles.
- Create user flows, wireframes, and high-fidelity prototypes to transform ideas and requirements into intuitive digital experiences.
- Apply user interface design principles, visual hierarchy, typography, layout, and color theory to create engaging interfaces.
- Design responsive layouts for different screen sizes and devices.
- Conduct usability reviews and iterate designs based on user needs and design best practices.
- Use Figma to create wireframes, prototypes, and high-fidelity interface designs.
- Collaborate with frontend development concepts by applying knowledge of HTML and CSS to create designs that are practical and developer-friendly.
