PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Developer skilled in creating responsive, user-friendly digital experiences from concept to code. Experienced in wireframing, prototyping, and high-fidelity interface design in Figma, combined with front-end development using HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, Express.js, and SQL. Also skilled in graphic design (Canva), producing social media graphics, presentations, and brand materials. Seeking a remote role or freelance opportunity to apply design and development skills together on user-centered digital products.

CORE SKILLS

- UI/UX Design: Figma, Wireframing, Prototyping, User Flows, Usability Testing, User-Centered Design
- Front-End Development: HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, Responsive Web Design
- Back-End & Database: Node.js, Express.js, RESTful APIs, SQL
- Graphic Design: Canva, Social Media Graphics, Brand Identity, Presentation Design
- Tools & Practices: Git, GitHub, Visual Studio Code, Cross-Browser Compatibility, Mobile-First Design

EXPERIENCE

UI/UX Designer & Front-End Developer — *Independent / Personal Projects* 2025 – Present

- Designed responsive web and mobile interfaces in Figma, from wireframes through high-fidelity prototypes, applying user-centered design principles, visual hierarchy, and accessibility best practices.
- Developed responsive, cross-browser-compatible websites and web applications using HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, and Express.js.
- Built and managed SQL databases and RESTful APIs to support web application functionality.
- Conducted usability reviews and iterated designs based on user needs and feedback.
- Used Git and GitHub for version control across all projects.

Graphic Designer — *Olubade Graphics and Paints* 2016 – 2018

- Designed social media graphics, flyers, posters, presentations, and promotional materials for client brands, applying color theory, typography, layout, and composition principles.
- Produced brand identity concepts including logos and marketing materials for small businesses.

PROJECTS

Àjò — Relocation Planning App (Flagship Project) — *UI/UX Designer & Front-End Developer*

- Designed and built a full relocation-planning platform end-to-end — from onboarding flow through dashboard, personalized roadmap, document tracker, budget planner, and exam prep — in Figma, then developed the interface in HTML, CSS, and JavaScript.
- Defined a complete design system (color palette, typography, icons, components) and applied a "one clear next step" design principle to reduce cognitive load in a naturally stressful process.

Vélora — Travel & Accommodation Booking Platform — *Full-Stack Web Developer*

- Designed and developed a responsive travel booking platform with property listings, detail pages, photo galleries, reviews, wishlists, booking functionality, and a property-hosting form using HTML, CSS, and JavaScript.

QueueGo & Aurelia — UI/UX and Brand Design Projects — *UI/UX & Brand Designer*

- QueueGo: designed wireframes and UI for a queue management platform with a clear user flow. Aurelia: created a full restaurant brand identity, including logo, color palette, and brand collateral, in Figma and Canva.

EDUCATION

Bachelor of Science in Chemistry — *Lagos State University* 2018 – 2022

COURSES & TRAINING

- Complete Web and Mobile Designer: UI/UX, Figma, +More — Udemy (2025)
- Advanced Canva Graphic Design Training — Ronny Hermosa (2025) | Full-Stack Web Development — Udemy & FreeCodeCamp
